Greenberg & Lieberman selects Orion

Washington, DC IP firm upgrades to integrated law firm management software.

Atlanta, GA – September 15, 2005 – Orion Law Management Systems, Inc. announced today that the law firm of Greenberg & Lieberman, LLC has chosen Orion software for integrated financial management, firm management and practice management. The firm is registered to practice before the U.S. Patent and Trademark Office and also offers its client's general business law and civil litigation services focused on Internet and intellectual property issues. An integrated system that includes financial and practice management was critical to the decision to implement Orion.

Workflow management and integration with FoundationIP were important issues for the firm. Greenberg & Lieberman uses FoundationIP to manage the docketing, document preparation and the filing of its Intellectual Property matters. The firm required a solution that would integrate the firm's IP cases with its other practice requirements.

"Orion was the only software company that understood our needs and was willing to work with us to make certain those needs were met," said Stevan Lieberman, Managing Partner, Greenberg & Lieberman. "We knew we wanted one software program that would bring together our Billing, Accounting, Reporting, Payroll and CRM requirements, and with Orion we found it."

"Greenberg & Lieberman is a welcome addition to Orion. We're pleased we were able to meet their integration needs and look forward to helping them continue to build their practice," said Paul G. Yelton, President of Orion Law Management Systems, Inc.
